

EAA Chapter 808 Newsletter Jan, 2016

THIS MONTH'S MEETING IS AT FREMONT COUNTY, **JAN 9th, 2015 @ 8:00am**

EAA Burrito Breakfast

Saturday, January 9th at 8:00am

Words from the President

Yep, that is right...Breakfast Burritos, coffee and aircraft talk all combined at one central location, Fremont County Airport. It might be a little cool, but we will still be there!

Plan on one Breakfast Burrito for \$3, two Burritos for \$5, and Coffee is FREE. We will have some hot coffee, but any other beverage will be up to you to bring. We are not planning on having a program for this meeting, but we will need to have a very brief business meeting to approve payments from the Christmas Party.

Speaking of Christmas...I hope everyone had a good time at our party and then a safe, festive holiday with your family and friends. We had about 50 people attend our Christmas party and the PWA Museum turned out to be the perfect setting! Thanks to all of those who participated, it was a good time!

I'm sending this to you on New Year's Eve, so if you wake up tomorrow with nothing to do, join us at the Fremont County Radio Control Club's Nitro Chili Burn. It will be held at the RC Field just south of 1V6, by the white water tower. It officially begins at 10:00am New Year's Day. They provide the chili, but you might want to bring some chips or drinks

to share. There will be everything from full size manned aircraft flying overhead to sky divers, and of course a lot of RC planes and drones. It was a great time last year and I'm sure it won't disappoint this year either.

We are going to shift our focus to becoming more of a social club, so you can plan on us having our meetings on Saturdays and they will be held either at Fremont County with us cooking, or meeting at the new Pueblo airfield diner when it opens. We will discuss this at this coming meeting and develop a hard schedule that I will send out to everyone. The idea is to get rid of the formal portion of the meetings unless it is absolutely necessary and in its place we will do more socializing and hanging out at the airfields. We also need to start gearing up for our Young Eagles Rally to be held in June. We will be forming a committee early this year so that the work load won't crush us at the end. So, be ready to volunteer and get involved in our one charity event!

Blue Skies,

Ron Davidson

Vice President Program Words & Program Notes

We have slipped a lot of these programs to the right, so if you find your name on a month you can't cover please contact Jon Fredricks. (We will discuss this at our meeting and add programs as necessary as I believe both scheduled program givers will have conflicts)

Here are the Programs scheduled for the next couple months

Jan – No Program

Feb- Jim Woolworth

March – Barry Cole (Aircraft damage...Insurance/FAA Nightmare or just a fading bad dream?)

Grant Schemmel's Minutes from November's meeting (No formal meeting in December)

Meeting held at the Weisbrod Aviation Museum. Meeting held there to host pizza party for the Pueblo CAP squadron as a thank you for their assistance during the summer's young Eagles event.

President Davidson chaired the meeting

Guests: Pueblo CAP, Tom Land of DOSS Aviation: owns Long EZ project, acts as Safety Officer for CAP, is AF vet. Has plans for a Pietenpol and would like the CAP to assist

Old Business

Xmas Party: hold at museum. Estimate \$13-\$14/plate + donation, and catered

Jon held an RV club meeting here before, and feels that they do a good job. Dec 9th would be an available date.

A visit by Santa is possible if families are involved

Plan to pass the plate for donations

Would be possible to have the chapter subsidize the event somewhat so that the per-plate cost is only \$10.

If we can get a commit by more than 15 couples, can do the event.

Motion made, 2nded and approved for the museum party. Ron will send out email to membership.

Menu will include a choice of two meats

Motion made, 2nded and approved to provide \$400 for a contingency fund.

Museum wall project: Sue spoke with EAA National about getting items to display on the museum wall. Sounds like we could get some stuff, but she has not yet gotten to speak with anyone in charge.

Terry Terrill has pics dating back to the chapter formation years available

Other news:

Jon's plane is complete

Gail Claremont took her first aerobatics lesson at Jeffco and loves it

After Xmas we will be looking at changing our meeting formats to be more social w/ hangar visits and breakfasts

Meeting ended with motion to adjourn, which was 2nded and approved.

Minutes submitted by Grant Schemmel, Secretary

In the Workshop

December always proves to be a slow month as far as building goes...our wallets are usually drained buying presents and our time is usually spent driving, flying, skiing, wrapping, hanging lights, putting up trees, and on and on... So, we will pick back up with our builders next month.

If you have a project and experiences you would like to share with the Chapter, please send me your info ColoradoDavidson@gmail.com

Blue Skies,
Ron Davidson
