

EAA CHAPTER 808

February Newsletter 2017

A Word from the President

Well we had our first fly-out on February 11th to La Junta. 18 people attended the meeting and enjoyed a pizza lunch. Four aircraft flew in and the other members drove. The prevailing winds in certain areas restricted members and their aircraft to make the trip. Even so we had a very productive meeting and it appears we may get a couple of new members. We had a great conversation with a gentleman named Fletcher that was a major part of a rebuild of a T-41 Mescalero. He had some great photos and was a pleasure to talk with him. In the newsletter will be some information about our planned Young Eagles Flights that Susan Myers is coordinating. (We even had Dave and Susan's son an Air Force Academy cadet attend) She is looking for pilots and assistance. The next Young Eagles flight will be at Fremont County Airport March 18th. We are conducting more flights with fewer youngsters to provide more exposure at different airports. We really want to make a valiant effort to introduce the youth into aviation. We will be planning another fly out/Chapter Meeting in April hopefully to Walsenburg. (Lookout Matt Here We Come!) Please let us know if there is something anyone would like to add to the newsletter, visits to projects or other aviation related interests. We are working on visits to the Supertanker, Colorado Springs Aviation Museum, and an ADS-B compliance review by one of our members. Please take time to read the newsletter as more information is included.

Terrence Terrill

Minutes for EAA Chapter 808 February 2017

Feb 11, 2017 at La Junta Airport (KLHX) 10:30 AM

Meeting was called to order by Terry Terrence, everyone present introduced themselves.

Treasurer Report: Papers were filed with the state of Colorado, which cost of 10\$. As of this date there is \$2003.60 in the checking account. It was moved, seconded and approved that we accept the Report.

Secretary's Report: Secretary was asked as to the number of members, and the number of emails that were sent with the newsletter. Secretary was unsure of the number. Ron Davidson and Dave Springer are working on a Master List of the Members.

Motion was made by Susan Myhre, and Seconded by Ron Davidson that we raise the yearly dues from \$15 to \$20 to be paid by the October meeting. The motion was approved.

Was suggested we get the group filing number from the National Office.

Motion was made by Susan Myhre and Seconded by Dave Myhre that Terry should be reimbursed for the purchase of the pizzas, for the meeting. Motion was approved.

Young Eagles coordinator Susan Myhre, requested that we fly Young Eagles on March the 18th, at Fremont County airport. This was approved and we are in need of at least 5 airplanes, as we are going to only fly about 25 Young Eagles.

If you have an airplane and you would like to participate you will need to have a back ground check, and training required by the EAA. Anyone wishing to do so should Contact:

Susan Myhre, Ph. # (719) 252-7832, Email Address: youngeagles@eaa808.org

The following dates and places are planned for this year: Young Eagles at Pueblo Airport on June the 3rd, and October the 14th at Spanish Peaks, Walsenburg airport.

Susan also informed the Chapter that the Civil

Air Patrol now has a plane in Pueblo. She is planning an open house, for interested pilots and their families, as well as the Pueblo aircraft workers and the emergency team at the Pueblo Airport.

Dave talked about our internet site for the Chapter on flight squid. He also presented the charts with the Doss training areas shown.

Anybody in the club who would be interested in helping to refurbish a Link Trainer get in touch with Jon Federick Ph # (719)547-7537

Motion was made that the meeting be adjourned, and passed. Meeting was adjourned at 11:26

Secretary,
John E. Davolt

From the Young Eagles Coordinator

Greetings Fellow EAA Chapter Members!

It's time to fly some kids again! We're looking for a few pilots to fly about 25 students out of the Fremont County Airport on Saturday March 18, 2017. Please see the attached flyer and let me know ASAP if you're willing to fly. If you are new to the Young Eagles program, there are a few requirements to complete.

1. Must be a current member of the EAA.
2. You must be completely up to speed with all FAA requirements for yourself and your airplane.
3. You must complete the EAA's Youth protection Training online at the EAA website (under your own login) and submit to a cursory criminal background check paid for by National EAA.

If you have any family members or friends with interested students, please have their parents contact me soon. I expect that we will get 25 RSVP's relatively quickly. Please contact me via email at youngeagles@eaa808.org. Or via text/phone at **719-252-1832**.

Thank You,
Susan

From the Editor:

Well, I see that another month has rolled around. There seems to be many things in the works, and I am excited, I would like to see the EAA chapter 808 grow.

It takes the efforts of everyone to keep things moving and I am glad to see we have some stepping up to the plate to help out. Susan Mhyre has been working hard to get a program going for the Young Eagles on the 18th of March which is only a couple weeks away, and we will be doing that at the Fremont County Airport. **See the flyer on page 5.** Young Eagles are an important part of getting young people involved and helping them get a desire to fly. I remember when I was 15, I was taken for a flight by one of my teachers (Martin Nelms) in High School, and I caught the flying bug. He saw my interest in flying and began bringing me books to study. I began flying when I was 15 when I started flying and soloed on my 16th birthday. This teacher arranged for the local newspaper to come and take a picture of me on that day, so made the front page of the Independence Daily Reporter. Thirty years later, I soloed my Son at the same airport on his 16th Birthday, and he made the front page of the same newspaper. So if you run into a young person who has a desire to fly help keep that desire alive.

Susan has also been working to have an open house this coming Saturday March the 4th for the Civil Air Patrol. **See the flyer on Page 4.** This is another way to get young people involved, so if you know anyone who might be interested, please get in touch with Susan.

So, hope to see you all soon, and this month at Fremont County Airport.

I have a new email for EAA secretary@eaa808.Org. You can still send photos to my old email. Feel free to send any interesting photos, or articles to me my email address is testpilotjed@gmail.com.

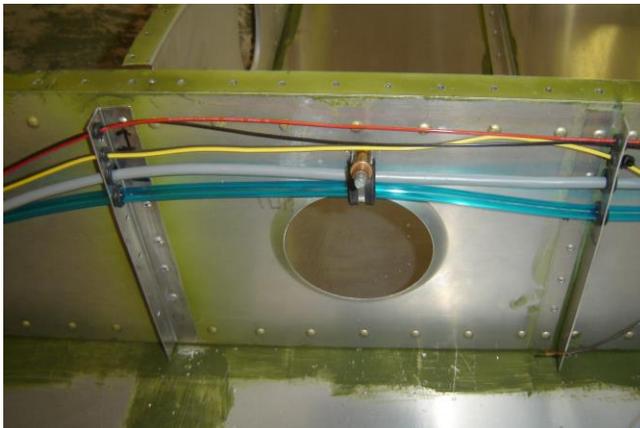

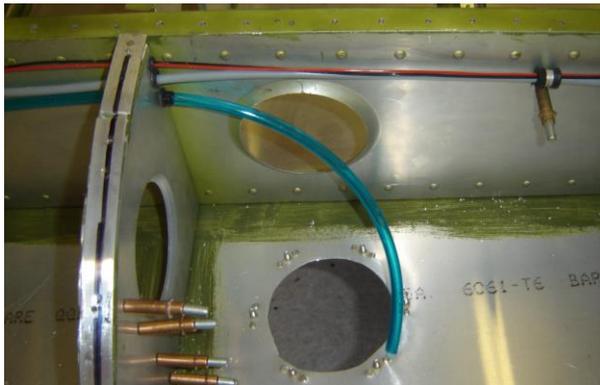

John E Davolt,
Secretary and Newsletter editor

A Little Info from Jon Federicks Build

I have included three pictures that show my routing of pitot line, wiring and the wing tanks that I am installing.

Takes a lot of planning to get the holes in the wing bottom and top to line up with the tank drain, vent and filler cap. I had to make a mock-up of the tank to locate the holes in the skin. A nose rib had to be replaced (supplied in the kit) as it had to be moved inboard to make space for the tank.

The wiring was not complete and was not done correctly. It was laying on the bottom of the wing and routed through lighting holes and not secured. The wires are now routed to protect them from vibration. The wiring is for navigation lights, strobes and fuel sending unit. The pitot tube had not been installed. That was another reason to open up the wing.

Jon asked me to place this AD also.

WANTED: Continental 0-200A OR D (100 HP) with log book and history. He would like mid-time engine with FWF if possible.

Dues: \$20 a year per member. They are due in Oct. Mail to **Dave Springer, 1608 N. Amache Dr. Pueblo West, CO 81007**
